

Compétence : Calcul en ligne : Soustraire des dizaines à un nombre de deux chiffres.

Nom

Date

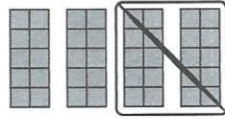

Calcule.

Je sais calculer $3 - 2$, alors
je sais calculer $30 - 20$.

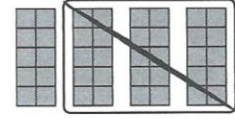

$$3 \text{ d} - 2 \text{ d} = \dots\dots \text{ d}$$

$$30 - 20 = \dots\dots$$

$$4 \text{ d} - 2 \text{ d} = \dots\dots \text{ d}$$

$$40 - 20 = \dots\dots$$

$$4 \text{ d} - 3 \text{ d} = \dots\dots \text{ d}$$

$$40 - 30 = \dots\dots$$

Calcule.

$$3 - 2 = \dots\dots$$

$$30 - 20 = \dots\dots$$

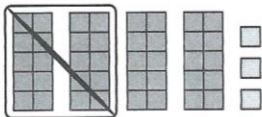

$$6 - 4 = \dots\dots$$

$$60 - 40 = \dots\dots$$

$$5 - 3 = \dots\dots$$

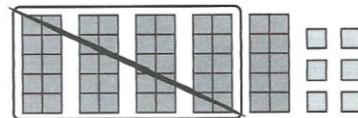

$$50 - 30 = \dots\dots$$

Calcule.

$$4 \text{ d } 3 \text{ u} - 2 \text{ d} = \dots\dots \text{ d } \dots\dots \text{ u}$$

$$43 - 20 = \dots\dots$$

$$5 \text{ d } 6 \text{ u} - 4 \text{ d} = \dots\dots \text{ d } \dots\dots \text{ u}$$

$$56 - 40 = \dots\dots$$

Colorie de la même couleur les étiquettes du même nombre.

$$45 - 30$$

$$65 - 30$$

$$65 - 20$$
